**RULE 1006 SUMMARY OF VOLUMINOUS WRITINGS**

Below is a list of the 52 Libby Claims that should be disallowed because the EPA has assumed exclusive responsibility for any alleged damage to the properties. For each claim, Column 4 of the list indicates the action that has been taken by the EPA at the property and Column 5 indicates the source of information relating to that action. Sources include: (1) Laboratory reports indicating the samples taken at the property contained no asbestos ("EPA Test Results"); (2) documents indicating properties have been inspected by EPA ("Claim Form" or "Consent Letter"); and (3) documents indicating the property has been remediated ("Completion Letter," "Closeout Checklist" or "EPA Letter"). Instead of attaching these materials to the Motion, Debtors summarize the relevant content of these voluminous documents in Columns 4 and 5 of this list.
